Product Data Sheet — GF015 Tape

Description	GF015 - Aramid blend Fabric Tape A blend of para-aramid/meta-aramid/fiberglass
Size:	Available in 1/16" thickness and 1", 1-1/2", 2", 3", 4", 5" and 6" widths
Application:	Aramid tape is used in sealing oven doors, covers, ducts, dampers, panel joints, between metal flanges and other applications where conformance to uneven surfaces is required and abrasion and/or chemical resistance is a primary concern.
Chemical Resistance:	Aramid textiles have excellent resistance to most chemicals. Please call Gaskets Incorporated for specific application concerns.
Other:	Aramid has excellent mechanical properties being resilient with excellent resistance to thermal shock, abrasion and vibration. It is used in a variety of industrial and aerospace applications requiring superior temperature and insulation performance. It is uniquely suited for cryogenic use because of its strength in spite of extreme cold conditions.
