<b>Application:</b>	Kevlar®/Aramid tape is used in sealing oven doors, covers, ducts, dampers, panel joints, between metal flanges and other applications where conformance to uneven surfaces is required and abrasion and/or chemical resistance is a primary concern.
<b>Chemical Resistance:</b>	Kevlar®/Aramid textiles have excellent resistance to most chemicals. Please call Gaskets Incorporated for specific application concerns.
<b>Other:</b>	Kevlar®/Aramid has excellent mechanical properties being resilient with excellent resistance to thermal shock, abrasion and vibration. It is used in a variety of industrial and aerospace applications requiring superior temperature and insulation performance. It is uniquely suited for cryogenic use because of its strength in spite of extreme cold conditions.
