Product Data Sheet — GT15S

Tadpole Types: 1, 2, 3, 8, & 9

Description:	Kevlar®/Aramid tadpole seal
Size:	Standard and custom sizes available. See Tadpole Types and potential sizes listed above.
Cover:	1/16" Thick Premium quality woven Kevlar®/Aramid Tape.
Core:	304 Stainless Steel Solid Mesh Core
Temperature:	500° - (320°) F / 216° - (196°) C
Application:	Tadpole seals are used in sealing oven doors, covers, ducts, dampers, panel joints and other applications where conformance to uneven flanges is required.
Chemical Resistance:	Kevlar®/Aramid textiles have excellent resistance to most chemicals. Please call Gaskets Incorporated for specific application concerns.
Other:	Kevlar®/Aramid has excellent mechanical properties being resilient with excellent resistance to thermal shock and vibration. It is used in a variety of industrial and aerospace applications requiring superior temperature and insulation performance. It is uniquely suited for cryogenic use because of its strength in spite of extreme cold conditions.
