

Product Data Sheet — G100A

Description:

High-Performance Coated Fiberglass material for Sleeves and Expansion Joints

Fabric

100% fiberglass, Impregnated with Vermiculite and coated with High-Temperature Aluminum Paint

Non-Flammable

Product will not burn, smolder, or support flame

High Heat Resistance

Remains stable to 1000° F/538°C, abrasion resistant and resistant to direct flame

Excellent Dimensional Stability

Will not stretch or shrink. Retains stability even at high temperatures

High Tensile Strength

Highest strength to weight ratio of any industrial textile product

Chemical Resistance

Highly resistant to most chemicals and solvents, will not rot or mildew

Painted Aluminum Layer

Increased resistance to air and gas leakage

.
